OPHTHALVIT

A Product of Surgeway Biosciences

About Surgeway Biosciences

- ▶ SurgeWay Biosciences is a pharma export house with an increasing presence in many countries
- ▶ The company is part of a larger group which has been in the Pharmaceutical Industry for the past **36 years/since 1984**

Our Niche Product Portfolio

- Unique Food Supplements
- Patented Herbal Products
- US-FDA Medical Devices
- Specialized Drugs

COMPOSITION

Each capsule contains:

Vitamin C	40 mg
Lutein (10%)	30 mg
Zinc	10 mg
Manganese	5 mg
Copper	0.75 mg
Selenium	100 mcg
Zeaxanthin (30%)	5 mcg
Vitamin E	10 I.U.

INTRODUCING OPTHALVIT

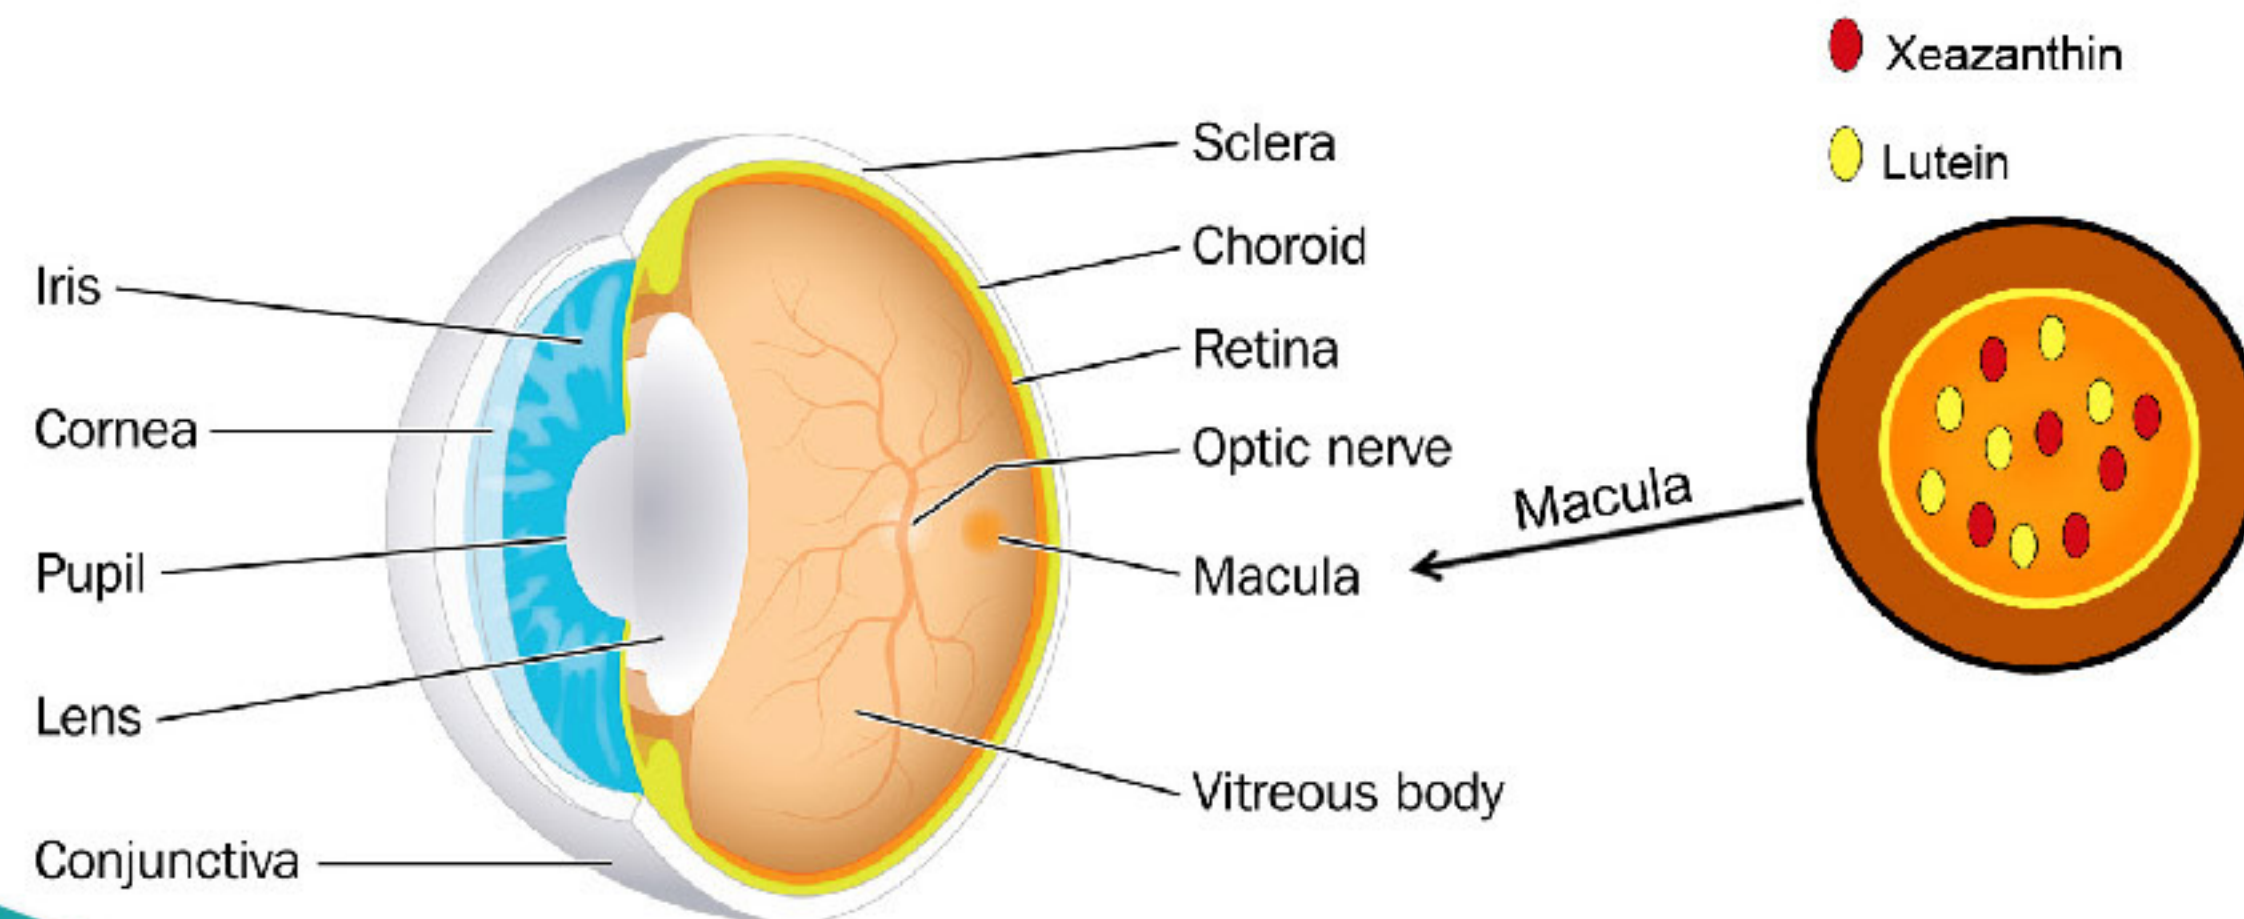

- ▶ **OPHTHALVIT** is a nutritional supplement specially designed for healthy eyesight. This powerful antioxidant combination prevents oxidative stress in the eyes.
- ▶ It prevents the cataract formation and macular degeneration.
- ▶ This formulation is rich in carotenoids, antioxidants and minerals that are essential for the healthy eyesight.
- ▶ It mainly works by protecting the macular region of the retina, which is responsible for the central vision.

WHAT DOES OPTHALVIT CONTAIN?

Carotenoids such as lutein and zeaxanthin

- ▶ It blocks the blue light from reaching the underlying structures in the retina and eventually prevents the light-induced oxidative damage, which causes macular degeneration.
- ▶ Lutein and zeaxanthin also improve the visual acuity.
- ▶ Lutein and zeaxanthin are helpful in improving the macular pigment optical density and delaying the progression of cataracts and macular degeneration.

Vitamins like Vitamin C and Vitamin E

- ▶ These are potent antioxidants, which support eye health by reducing the cataract risks, slowing down the progression of age-related macular degeneration and protecting the visual acuity.
- ▶ These vitamins protect the eyes against the damage caused by inflammation and UV exposure.

Minerals like Selenium, Zinc and Copper and Manganese

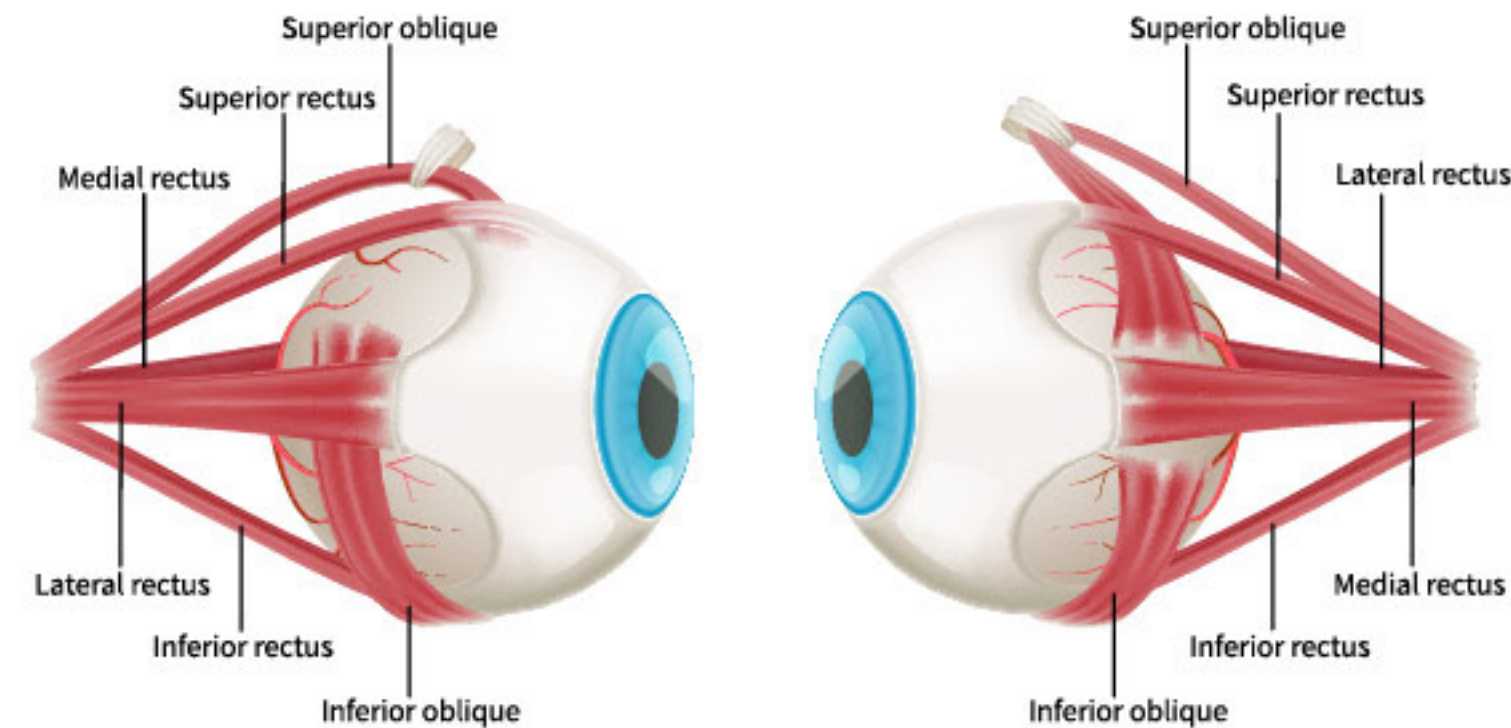

- ▶ Copper controls the oxygen levels in the eye tissue and its deficiency can cause impaired vision and vision loss.
- ▶ Zinc and selenium together keep the intraocular pressures low and protect the eyesight against UV damage.
- ▶ Zinc delays macular degeneration in elderly people.
- ▶ Manganese improves the ocular functions of the eye.

SUPPORTIVE IN THE TREATMENTS OF:

- As a nutritional supplement for healthy eyesight
- Cataract
- Age-related macular degeneration
- Retinitis pigmentosa
- Diabetic retinopathy

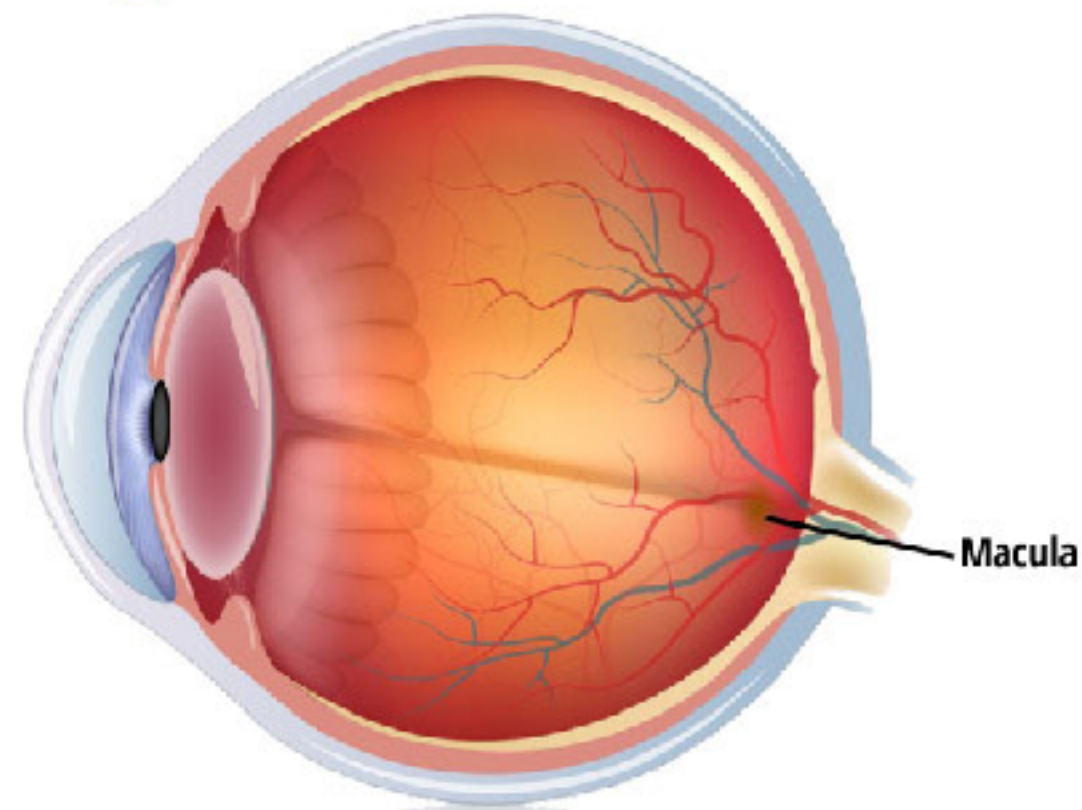

Muscles of the Human Eye

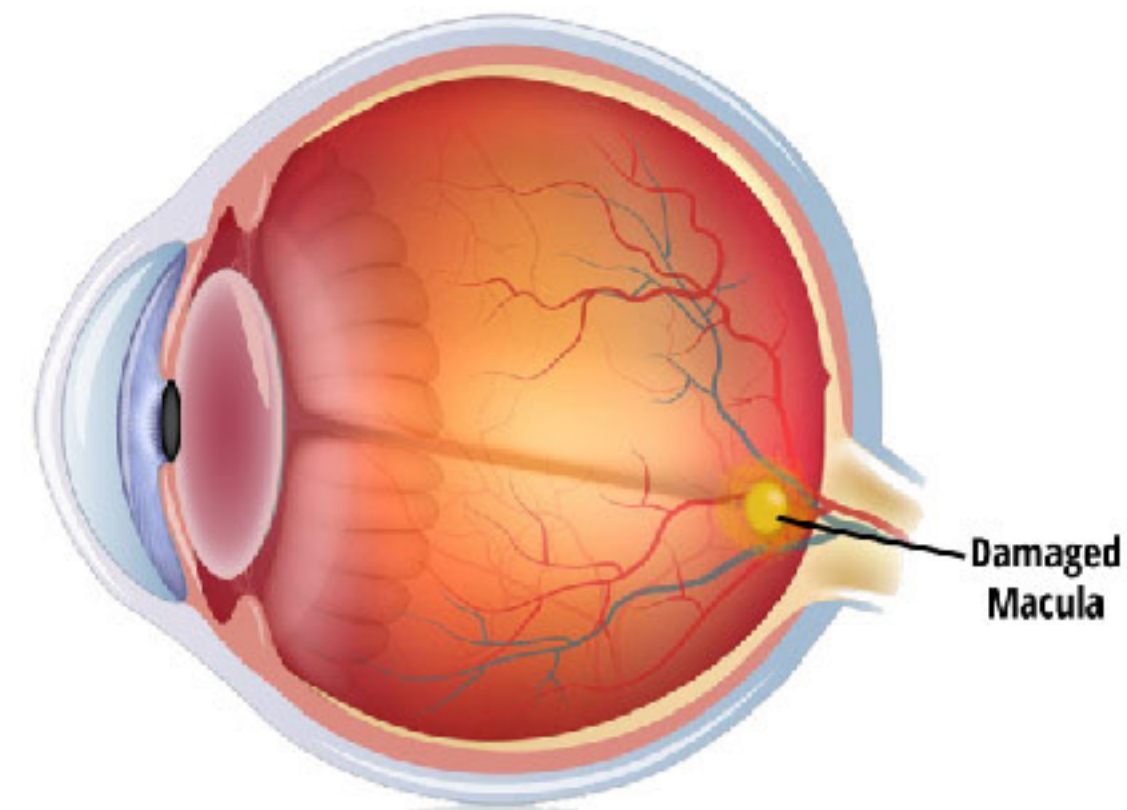

Say No To Spectacles

SOME SHOCKING FACTS ABOUT CATARACT

- ▶ 50% of people over 75 suffer from "Cataract in Western world". Developing world much higher
- ▶ 90% of cataract vision impairment and blindness are found in developing countries

Healthy Eye

Macular Degeneration

IS SURGERY THE ONLY OPTION TO PREVENT CATARACT?

YES; if the cataract is established

However, as per Presmed Australia, it can be averted if our diet consists of: Vitamin C, Vitamin E, Lutein, Zeaxanthin, Beta-carotene, Omega-3 fats, Protein, Fibre, Niacin, Riboflavin, Thiamine, Folate and Vitamin B12

OPHTHALVIT has been developed in such a way that

- It contains most of the essential ingredients that are not harmful to our body,
- Cost effective and
- Can be taken by anyone.

SOME SHOCKING FACTS ABOUT AGE RELATED MACULAR DEGENERATION (AMD)

- Most common cause of irreversible blindness and visual impairment in developed countries
- 50% of people >50 years have AMD
- 2/3 of 90 years old have AMD

CAN AMD BE TREATED OR PREVENTED THROUGH USE OF ANTIOXIDANT SUPPLEMENTS?

As per Presmed Australia, it can be treated, if the supplement is rich in- Vitamin C, Vitamin E, Beta-carotene, Zinc and Copper.

OPHALVIT contains all these ingredients except Beta-Carotene, which increases the risk of lung cancer in smokers. Hence, beta-carotene has been replaced with carotenoids such as Lutein and Zeaxanthin.

USP's

- ▶ It doesn't contain Omega-3
- ▶ Omega-3 can interact with a number of medications especially with blood thinning drugs
- ▶ It is Cost effective, since Omega-3 inflate the pricing of eye supplements
- ▶ It doesn't contain Beta-carotene, which increases the risk of lung cancer in smokers
- ▶ Instead of Beta-carotene, OPTHALVIT contains carotenoids such as Lutein and Zeaxanthin, which our body is unable to produce.
