1 lozenge  
=  
5 gms of  
Fresh Ginger

## WELLGIN for Antitussive

- ✦ Ginger works on the respiratory system to cleanse and heal.
- ✦ Its pungent action helps eliminate mucus from the lungs that may be the cause of a cough.
- ✦ Ginger is also a natural muscle relaxer that can relieve spasms associated with intense coughing.
- ✦ One study suggests that some anti-inflammatory compounds in ginger can relax membranes in the airways, which could reduce coughing.

- ✦ Ginger soothes your throat and lung tissues, support your immune system and remove mucus.
- ✦ A study was published on Pubmed, which says that ginger provides molecular entities, which induces antitussive activity without addiction.
